QUINN[™] CAST
design

QUINN CAST Design

Our world is a colourful place, and the new range of QUINN CAST design sheets, takes you on a trip of discovery to exotic locations!

QUINN CAST design is an acrylic sheet, with one or both surfaces finished with a lustrous satin like texture, that won't stain, reduces contamination through finger marks and has a warm shading. The texture is even retained after processes such as thermoforming and bending, ensuring that your finished article remains true to your concept.

When you need to attract attention, what better than a flash of Seville Orange to suggest hot summer sunshine, or for a cooler look, try Iceland White or Evian Blue...Fresh Everglade Green or Cape Town Yellow will bring spring to mind, whilst Havana Brown speaks of soft autumn shades. Our new colours are Petra Rose, Village Green, Mexican Orange, Glacier Green, Nordiac Blue and Parma Violet.

Whatever look you're trying to capture, take a trip around our world of colours - you'll return satisfied!

PRODUCT IDENTIFICATION

QUINN CAST design is a cast acrylic sheet with either one or both surfaces in a matt, frosted look.

The key features are

- Wide variety of colours
- Tactile surface, does not stain, reduces finger marking and attracts less dust
- Softens harsh colours, and diffuses light
- Scratch resistant
- Easy to use, shape and maintain
- 'Frosted look' is retained even after thermoforming, sawing and drilling
- Resistant to many chemical products
- Readily combined with wood or metal

COLOURS

The illustrated colours may vary from the real colours due to limitations in printing technique.

CHARACTERISTICS

QUINN CAST design is an acrylic sheet with non-glare surfaces. Due to its intrinsic properties, it is specially designed to intensify light dispersion. Its matt surfaces increase the dispersion effect. By using this material in displays the image will be enhanced and the result very clear.

TECHNICAL INFORMATION

QUINN CAST design has similar technical specifications and physical properties as QUINN CAST standard sheet. Please refer to our QUINN CAST technical manual for further details.

APPLICATIONS

With its many aesthetic advantages, QUINN CAST design is the key to convince manufacturers of visual communication material and interior design professionals.

QUINN CAST design is perfect for

- Interior design
- Showcases
- Elegant furniture
- Shop fittings
- Signs/Publicity
- Corporate gifts
- POP displays
- Corporate identity programmes
